

Paragon MLS iPad Compatibility Policy

(As of 01/15/13)

Paragon MLS is compatible with all versions of the iPad Tablet (1, 2, 3, Retina Display) via the Safari and Chrome browsers.

Safari and Chrome

Safari and Chrome browsers in use within the iPad have inherent functionality differences compared to the versions used on Desktops and Laptops. We have made design accommodations where possible to provide as much functionality as possible compared to the online versions of these browsers.

- Other available iPad Browsers: **Not supported at this time**

Important: A specialized downloadable Application is not needed on the iPad to access the Paragon MLS system.

Supported Modules/Functions

The following areas of Paragon 5 have passed Quality Assurance and are available for use on the iPad Safari and Chrome browsers.

- Home Page and Overall User Interface
- Multi-tasking via Tabs
- In – Line Auto Complete of Fields (where available)
- Property Searches
- Results Views
- E-mail
- Financials
- Contacts
- Client Connect
- CMA (View Only)

iOS 6.0.1

Image Upload and Rich Text Editor

iPad's running **iOS 6.0.1** will have the capability of using the Paragon Rich Text Editor which enables additional functionality in the CMA, E-mail other Paragon functionality where the Rich Text Editor is used. This version also supports the upload of Listing Images, Agent and Office Images (via Preferences) and Images within the E-mail editor.

Restrictions

The following areas of Paragon are not initially supported due to functionality restrictions within the Browsers. Please note that **incompatible features will be made unavailable, grayed out or restricted from use.**

- **Spreadsheet**
